Handset Instructions

The whole handset surface is a button panel. If there is no press within 30 seconds, the screen is locked and M1/M2/M3/M4 keys are locked correspondingly, you should press Up or Down key first, it can be used when the display screen light up.

■ **Up or Down Key**

To adjust the height of the desk, keep pressing "up" or "down" until your desired position.

■ **Display screen**

Display the height value of the desk.

■ **Memory Key (M1/ M2/ M3/ M4)**

After setting memory keys, the desk can lift automatically to a saved preset.

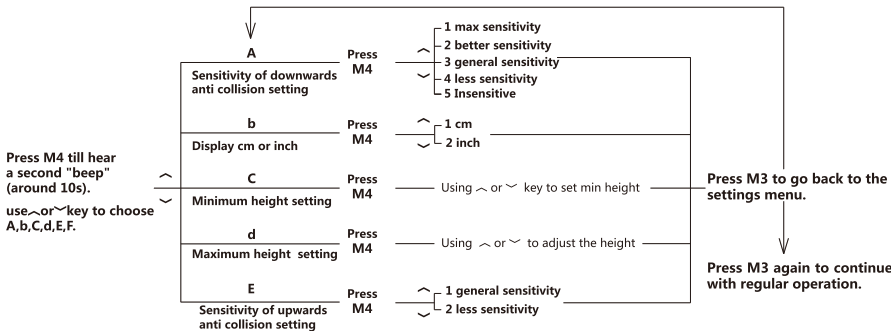

※ How to set memory mode

Please hold the M1/M2/M3/M4 key for 5 seconds. Once you hear a "beep", the memory height will be successfully saved. Then press M1/M2/M3/M4, the desk will move to your saved height automatically.

■ **Collision Detection**

When the desktop is moving and encounters resistance, the desk will stop moving.

■ **Additional Adjustments**

■ **Troubleshooting**

Error code	Problem	Solution
ER1	Motor error	Power off and restart. If problem continues, contact support.
ER5	Overload protection	Decrease load, power off and restart.
Hot	Exceeded motor operating values.	Decrease load and do not adjust desk height for 10 minutes. If problem continues, power off and restart.
